

Elizabeth Meixner **Owner and Managing Director, Moregate Biotech**

Elizabeth Meixner has been a member of the ISIA since its inception. She has been a Board member continuously since that time and served as the 2nd Chairman of the ISIA. Elizabeth continues to be an enthusiastic supporter of the ISIA and its aims, believing that the Association is the best way forward for the industry and that without it, our present and future activities and production would be severely curtailed by uninformed regulatory constraints and growing resistance to serum as a valid, viable and valuable product.

Moregate Biotech, founded in 1975, has been one of the world's foremost producers of high quality Australian and New Zealand Animal Sera, Protein and By-products supplying leading international pharmaceutical groups and major research organizations. Moregate Biotech is the largest Australia/New Zealand owned and based serum producer utilizing state of the art facilities, designed specifically to meet cGMP standards and ISO9001 certification across its operations.

Moregate Biotech manufactures and supplies Animal Sera both raw and sterile, Plasma, Protein, and the broadest range of animal By-products, obtaining all of its raw materials from Australia and New Zealand, two of the most disease-free countries on the globe. Moregate Biotech manufactures, packages and distributes tens of thousands of litres of Fetal Bovine Serum, hundreds of thousands of litres of Bovine Plasma and Serum, and thousands of tonnes of Animal By-products, to all points of the globe, each and every year, all to specific customer requirements.
